ISSN:1561-882X

Table of Contents

Volume 33, Issue 4 — April 2026

Research Articles

1.

Investigating the Role of Environmental Factors on Human Gut Microbiome Dynamics and Health Outcomes

Aiko Nakamura, Yonas Abebe, Maria Fernandez

Keywords: microbiome, gut health, dietary patterns, microbial diversity, geographic variations, Bifidobacterium

2.

Integrative Approaches in Refining Treatment Protocols for Chronic Diseases: A Multinational Study

Rafael Montenegro, Wei Zhang, Leila Al-Masri

Keywords: chronic diseases, treatment protocols, integrative medicine, patient outcomes, cultural adaptability, multinational study

3.

Analyzing Fiscal Policy Impacts on Emerging Markets: A Cross-Continental Study

Nikita Andersen, Mei Ling Zhao, Ahmed El Khatib

Keywords: fiscal policy, emerging markets, econometric modeling, economic growth, inflation, exchange rate, regional analysis, macroeconomic policy

4.

Investigating Osmotic Regulation and Adaptive Mechanisms in Drought-Tolerant Plant Species

Sophia Papadopoulou, Min-Joon Lee, Fatima El Hadj

Keywords: osmotic regulation, drought tolerance, proline accumulation, photosynthetic efficiency, stomatal conductance, abiotic stress, antioxidant defense

---

5.

Assessing the Impact of Climate Change on Global Biodiversity: A Multinational Perspective

Mingyu Chang, Priya Desai, Amina El-Mahdi

Keywords: biodiversity, climate change, ecological health, species decline, invasive species, habitat restoration

---

6.

Advanced Numerical Algorithms for Solving Nonlinear Partial Differential Equations in Applied Contexts

Rui Costa, Yasmin Akter, Mustafa Al-Khalidi

Keywords: numerical algorithms, nonlinear partial differential equations, finite element methods, computational efficiency, fluid dynamics, thermodynamics

---

7.

The Influence of Social Media on Group Dynamics and Identity Formation Among Adolescents

Yuki Mori, Fatima El-Sayed, Luis Fernandez

Keywords: social media, group dynamics, identity formation, adolescents, cultural differences, peer pressure

---

8.

Innovative Approaches to Harnessing Solar Energy Through Nanostructured Photovoltaics in Emerging Markets

Carlos Aravena, Siti Nurhaliza Putri, Amir Reza Hosseini

Keywords: nanostructured photovoltaics, solar energy, renewable resources, energy conversion efficiency, emerging markets, material science

---

9.

Exploring the Dynamics of Human Gut Microbiome in Response to Dietary Interventions

Elena Rosetti, Ming Zhang, Tariq Al-Basri

Keywords: gut microbiome, dietary intervention, Bacteroides, Firmicutes, microbial composition, health outcomes

---

10.

Cross-Cultural Insights into Behavioral Patterns: A Comparative Study of European, Asian, and Middle Eastern Societies

Eglė Petrauskaitė, Aravinda Wijesinghe, Nasrin Al-Mansouri

Keywords: behavioral analysis, cultural psychology, individualism, collectivism, emotional expression, conflict resolution

---

11.

Epigenetic Regulation of Gene Expression in Response to Environmental Stressors

Elena García, Hussain Al-Hadi, Mei Lin

Keywords: epigenetics, gene expression, environmental stressors, histone acetylation, DNA methylation, RNA sequencing

---

12.

Comparative Efficacy of Novel Antiemetic Agents in Oncology-Induced Nausea and Vomiting: A Multinational Study

Jonas Petrauskas, Aditi Shrestha, Javier Fernández

Keywords: chemotherapy, antiemetic agents, nausea, vomiting, clinical trials, patient outcomes

---

13.

Investigation of Sustainable Irrigation Practices for Enhanced Crop Yield in Diverse Climates

Elena Petrova, Chang Wei, Fatima Al-Hussein, Thiago Oliveira

Keywords: sustainable agriculture, drip irrigation, crop yield, climate adaptation, water conservation, soil moisture sensors

---

14.

Investigating Stomatal Conductance Regulation in Arabidopsis under Varying Light Conditions

Li Yan, Felix Müller, Amina El-Badawi, Carlos Mendes

Keywords: stomatal conductance, Arabidopsis thaliana, light regulation, photosynthesis, gas exchange, gene expression

---

15.

Optimization Models for Resource Allocation in Multi-Layered Network Systems

Carlos Mendoza, Aya Youssef, Malik Al-Hariri

Keywords: optimization, resource allocation, network systems, linear programming, heuristic methods, efficiency

---

16.

Global Economic Dynamics: Analyzing Fiscal Policies and Their Impacts on Growth Trajectories

Li Na Zhang, Mohammed El-Sayed, Carlos Hernández, Amani Okafor

Keywords: Fiscal policies, Economic growth, GDP, Econometric model, Regional analysis, Sustainability, Infrastructure investment
