Table of Contents

Volume 27, Issue 5 — May 2020

Research Articles

1.

Antibacterial activity of Ecliba alba L polyphenols on survivability of Leptospira interrogans in cooked rice and tea: a green antimicrobial strategy for safe food preparation

Sreenivasan Sasidharan, Rajandran R Kushha, Rajoo Amala, Ismail Aziah, Yeng Chen

2.

HIV-1 budding formation: Assembly of retroviral proteins and genome RNA packaging

Takuma Hayashi, Ikuo Konishi

3.

A survey on the student’s knowledge on managing pain in endodontic infection

Mirela Marinova-Takorova, Elka Radeva

4.

An Empirical Research Project on a Substantial Energy Saving for the Facilities of the University of Jeddah (Main Campus)

Mamoun A Janajrah

5.

Detection of Surface-Defected Kernels in Wheat Seeds using Machine Vision

Neeraj Julka ,A. P Singh

6.

Effect of Using Resistance Exercise on Gene Expression of IGF1 and Physiological Parameters for Athletes

Mohammed Nader Shalaby, Mona Sakoury , Ellie Abdi , Shaimaa Elgamal , Shaimaa Elrkbwey , Wael Ramadan, Redha Taiar

---

7.

Demarking genotypic, phenotypic variability, broad sense heritability and principal components of sugarcane (Saccharum officinarum L.) genotypes for better yield, quality and resistance against sugarcane mosaic virus (SCMV)

Rana Abdullah Abbas1, Naeem Akhtar1*, Muhammad Imran Hamid2, Ahsan Aziz3, Talat Mahmood4, Shadab Shaukat1, Asif Tanveer5 and Sana Noureen1
