

# Table of Contents

Volume 32, Issue 6 — June 2025

---

## Research Articles

---

1.

### **Evaluating the Impact of Environmental Factors on Plant-Microbe Interactions in Tropical Ecosystems**

Emiko Tanaka, Adebayo Okoro, Lucia Fernández, Laura Miller

*Keywords: Plant-Microbe Interactions; Tropical Ecosystems; Environmental Factors; Conservation; Ecosystem Management*

---

2.

### **The Role of Native Flora in Enhancing Soil Health and Biodiversity in Agroecosystems**

Dr. Aisha Fernandes, Prof. Hiroshi Tanaka, Rafael Laurent

*Keywords: Native Flora, Soil Health, Biodiversity, Agroecosystems, Sustainable Agriculture, Ecosystem Stability*

---

3.

### **EXERGY EVALUATION AND OPTIMIZATION OF ELECTRICITY AND REFRIGERATION PRODUCTION IN NATURAL GAS PRESSURE REGULATING STATION**

Amara Roux, Antoine Taylor, Taro Persson, Antoine Taylor, Taro Persson

*Keywords: Exergy Analysis; Gas Pressure Station; Turbo Expander; Power Generation; Refrigeration; Optimization*

---

4.

## **Biodiversity Assessment in Urban Green Spaces Using Remote Sensing Technologies**

Lina Zhang, Carlos Mendes, Priya Kumar, Elena Eriksson, Antonio Diallo

---

**5.**

### **The Effect of Sulfuric Acid, Temperature, Seed Production Locations and Agronomic Factors on Hard Seed Breakdown in Annual Medic (*Medicago scutellata* cv. Robinson)**

Andreas Zhou, Luis Wilson, Yong Wilson, Giovanni Yang, Luis Wilson, Yong Wilson, Giovanni Yang

*Keywords: Seed Coat; Hard Seed; Annual Medics; Sulfuric Acid; Temperature; Seed Dormancy*

---

**6.**

### **The Effect of Sulfuric Acid, Temperature, Seed Production Locations and Agronomic Factors on Hard Seed Breakdown in Annual Medic (*Medicago scutellata* cv. Robinson)**

, Bjorn Shevchenko, Pablo Miller, Louis Torres

---

**7.**

### **The Impact of IT Competencies on Agility Aspects and Competitive Activities in Ecological Management**

Jin Zhang, Nadia Ferreira, Rakesh Menon, Miguel Sánchez

*Keywords: IT Competencies; Ecological Agility; Environmental Management; Organizational Responsiveness; Competitive Ecology; Information Technology*
